

CAN MAKING

For steel and aluminum can making – we go beyond to benefit your entire operations.

START WITH THE RIGHT FLUIDS – AND THEN GO FURTHER. When it comes to improving your overall business, and getting the most from your process equipment and other plant resources, you need the expertise and experience of an established, recognized solutions provider to the industry.

That's where Quaker comes in. Trusted around the world as chemists, engineers and technical experts, we're a valuable partner to the world class customers we serve. We have a proven track record of improving can making operations by providing expertise and customized support services for all of the critical front end processes in your operation.

You benefit from years of worldwide research, experience and expertise applied directly to your processes to see a maximum return in productivity – for both processes and employees. And that means profitability and success for your business.

Our highly trained team of dedicated can professionals ensures that there is always someone from Quaker available to support you and to help you improve your can making efficiency.

Whether it's aluminum or tinfoil, Quaker has innovative, integrated process solutions and superior service to optimize your operations, increase profitability and realize further success.

KEY BENEFITS OF CHOOSING QUAKER SOLUTIONS FOR YOUR CAN MAKING OPERATIONS

- » Application Support – We work closely with your team for the best results
- » Reduced Tear-Off and Spoilage Rates – Improve efficiency and see less rework and rejects
- » Reduced Usage, Maintenance and Applied Costs – Positively impact your bottom line
- » Minimized Environmental Impact – Coolants are 100% biostable and cleaners are formulated for reduced water usage and reduced BOD's and COD's

INNOVATIVE OFFERINGS FOR:

- » Aluminum and Steel Can Washing – Unique QUAKLEEN® and QUAKLEEN TURBO ULTRA® cleaners along with Washflow and Washflow Ultra Mobility Enhancers
- » Aluminium and Steel Cupping and Bodymaking – High performance QUAKEROL® lubricants, coolants and coil prelubes
- » Bottle Can Necking – Quality Food Grade lubricants like QUAKEROL® BCL-4 and BCL-9
- » Tab Forming – Lubricants such as low VOC TABLUBE 2000™

A LOCAL PARTNER YOU CAN DEPEND ON. ANYWHERE IN THE WORLD.

Our Associates are on the ground in every region of the globe. That means our entire infrastructure (from sales to service, R&D to manufacturing) is designed to support our customers at a local level, whether in one facility or spread across multiple plants worldwide.

Put the right partner to work for you during every step of success. Contact Quaker today to transform your business from the inside.
